Work Experience

Self Employed
Remote

Freelance Software Engineer — *June 2022 - Present*

- Since 2022, I have been freelancing, collaborating with various companies, and working with individuals across multiple technology stacks.

Bonrix Software Systems
Ahmedabad, Gujarat, India

Software Developer Intern — *May 2024 - June 2024*

- A paid internship where the company compensated me for my work.
- Designed, developed, and hosted financial software from scratch, meeting client requirements.

National Small Industries Corporation Ltd.
Rajkot, Gujarat, India

Trainee - Digital Marketing With SEO — *July 2022 - October 2022*

- Designed engaging graphics for social media, email marketing, and web content.
- Created infographics and visual aids that simplified complex information and enhanced content readability.
- Conducted in-depth keyword research to optimize content and improve search engine rankings.
- Analyzed and reported on SEO performance using Google Analytics and SEMrush.

National Small Industries Corporation Ltd.
Rajkot, Gujarat, India

Trainee - Computer Hardware and Networking — *March 2022 - April 2022*

- Gained hands-on experience in assembling and troubleshooting computer hardware components.
- Configured and managed various networking devices, including routers, switches, and access points.
- Collaborated with a team to set up and maintain LAN and wireless networks, ensuring stable and secure connections.
- Collaborated with a team to complete a project configuring a Wi-Fi camera setup in a lab, enhancing surveillance capabilities.

Project Contributions

Bank Accounts Management System
React JS, Spring Boot, MySQL

Bonrix Software Systems

- Developed a system to manage multiple bank accounts and their data efficiently.
- Implemented core functionalities using Spring Boot, allowing users to upload bank account statements in various file formats (PDF, Excel, CSV) and generate customized reports.
- Designed and developed the user interface with React JS, enabling users to add, update, delete data, and download generated reports.
- Utilized MySQL for database management.
- Deployed and hosted the project successfully.

Virtu Wear
Android, Java, Firebase, TensorFlow

Freelancing

- Developed an Android application that allows users to virtually try on clothes.
- Implemented the core virtual try-on functionality in Java using the TensorFlow object detection model.
- Integrated Firebase for image storage and data management.

Tech Customs
Live | *GitHub*

Freelancing

- Developed a website where users can configure and purchase custom-built PCs according to their requirements.
- Designed the front-end using HTML, CSS3, and Bootstrap 5.
- Implemented the back-end with Java Server Pages (JSP) and managed data using MySQL.

TalkBack
Live | *GitHub*

Freelancing

- Developed a web application for sending, collecting, and visualizing client feedback.
- Created the back-end using Node.js and Express.js.
- Built the front-end with React JS and Redux for state management.
- Integrated Google OAuth authentication using Passport.js.
- Implemented email services with Mailgun and integrated Stripe for payment processing.
- **Note:** Live links and source code are for demonstration purposes only. Original projects are owned by their respective clients.

AutoBiography

Freelancing

- Developed a web application for viewing, bookmarking and downloading HD quality wallpapers of auto-mobiles.
- Created using .NET Core 8 MVC architecture, .NET API and MSSQL database.
- **Note:** Live links and source code are for demonstration purposes only. Original projects are owned by their respective clients.

Education

Marwadi University (MU) - 9.54 / 10 *Rajkot, Gujarat, India*
Bachelor's of Technology - Computer Engineering *2023 - 2026*

Gujarat Technological University (GTU) - 9.68 / 10 *Rajkot, Gujarat, India*
Diploma in Computer Engineering *2020 - 2023*
